THERMFiT  

MALAY

Di pasaran hari ini kecekapan tenaga adalah perkataan buzz untuk hampir mana-mana projek. Walaupun anda meletakkan di jendela dan pintu terbaik, anda masih boleh kehilangan pertempuran tenaga di kawasan lain di rumah. Melalui perkhidmatan ujian kami, anda dapat melihat apa masalah lain yang mungkin anda miliki. Penebat yang buruk, jurang di sekitar paip dan cawangan, penembusan kelembapan dan isu-isu lain boleh membuat pemasangan pintu dan tingkap anda kelihatan seperti tidak berfungsi dengan jangkaan. Pengimejan Thermal dilakukan dengan kamera sensitif haba infra-merah yang jelas menunjukkan kawasan di mana haba melarikan diri. Terdapat banyak kawasan di dalam rumah yang mempunyai jumlah tenaga yang sangat banyak selain tingkap dan pintu. Kami menyediakan pra-pembelian "Suruhanjaya Pemeriksaan & Kelembapan Terma" dan berpangkalan di Nelson tetapi

In today's market place energy efficiency is a buzz word for almost any project. Even if you put in the best windows and doors, you can still be losing the energy battle in other areas of the home. Through our testing services you can see what other issues you may be having. Bad insulation, gaps around pipes and outlets, moisture penetration and other issues can make your door and window installation look like it is not performing to expectations. Thermal Imaging is performed with an infra-red heat sensitive camera that clearly shows areas where heat is escaping. There are many areas of a home that loose vast amounts of energy besides the windows and doors. We provide confidential pre-purchase "Thermal Inspections & Moisture Surveys" and are based in Nelson but travel the region.
